

Padding attack

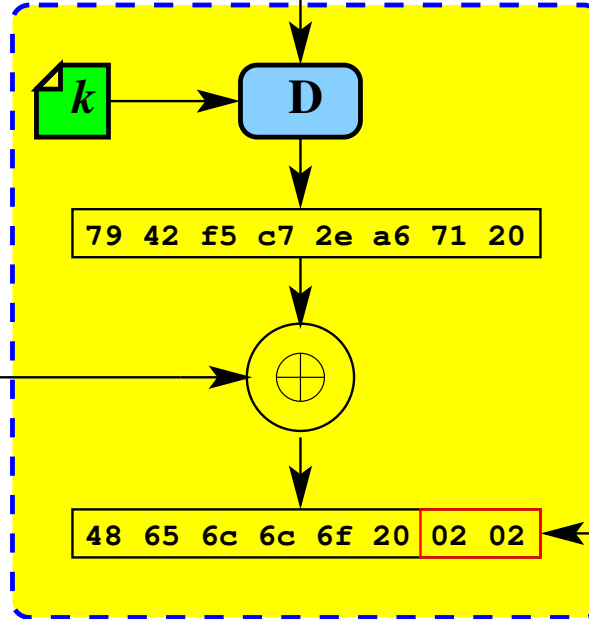

NOTOK
NOTOK
NOTOK
NOTOK

c_1	31	27	99	ab	41	86	73	22
							74	--
							75	
							76	
							..	

Attacker tries
until oracle
says OK

OK

c_2	b3	41	79	88	2f	ae	27	51
-------	----	----	----	----	----	----	----	----

The oracle does
this decryption...

... and checks this.
letting attacker know
if padding OK (only).

old trial

Now compute $73 \oplus 73 \oplus 02 = 02$
